Introduction

Reference for **Public** API.

- **Entry point:** POST `https://pragya-yog.com/api.php` — operation selected by body field `action`.
- **Body:** JSON (or `multipart/form-data` where uploads apply).
- **Auth:** none — no authentication required.
- **Uploads base:** `https://pragya-yog.com/uploads/`

Edit this file directly: each endpoint is a separate `<article class="endpoint">` block. No JS rendering.

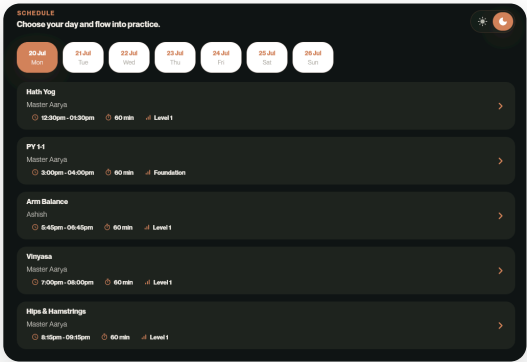

Public endpoints

Classes & Schedule

POST **publicClassByDate** PUBLIC

Public view-only schedule list for a date (optional filters).

REQUEST PARAMETERS

Name	Type	Required	Description
action	string	yes	Must be publicClassByDate
date	string	no	d/m/Y ; defaults to today
instructor	string/int	no	Filter by instructor ID
level	string/int	no	Filter by level ID
pillar	string/int	no	Filter by pillar ID
room	string	no	Filter by room

EXAMPLE REQUEST

```
{
  "action": "publicClassByDate",
  "date": "05/01/2024",
  "instructor": "12"
}
```

SUCCESS RESPONSE

```
{
  "status": true,
  "today": "Wed January, 5",
  "todaySchedules": [
    {
      "id": "101",
      "title": "Morning Flow",
      "date": "Fri January, 5",
      "instructor": "John",
      "color": "#4CAF50",
      "timing": "07:00am - 08:30am",
      "book_limit": "20",
      "booked": 5,
      "levels": "Beginner",
      "completed": "0",
      "credit": "1",
      "book_cost": "100",
    }
  ]
}
